Hiring Manager

Dear Hiring Manager:

I am excited to see the Learning Experience Designer position you posted on Indeed.com because it is a perfect fit with my skills and background. As my resume will attest, I have the experience that you seek. I'm a creative and experienced multimedia developer with more than eight years of experience in the field of Learning & Development. I excel at quickly creating impactful, customized content for my clients in an agile environment.

I am currently a multimedia designer for the University of North Carolina at Chapel Hill's School of Government (SOG). At SOG, I support the e-Learning program by creating classroom captures, webinars and modules to educate government officials across North Carolina.

I have extensive computer skills that include knowledge of Adobe Creative Suite, InVision, and Axure RP Pro. I also have web development skills and have several years of experience with web tools such as HTML5, CSS, responsive design, JavaScript, and angular.js. In addition to my design and web development skills, I am also pursuing a PMP certification.

I would welcome the chance to meet with you to further discuss my qualifications and how I can best contribute to your current goals.

I can be reached via email at contactme@jamarjayjones.com or by phone at 919-345-1687. My online portfolio is located at www.jamarjayjones.com.

Thank you for your time and consideration. I look forward to speaking with you.
Kind regards,

Jamar Jay Jones
